Baylor University/Baylor College of Medicine
8 year program
From Admission Website:
Baylor University and Baylor College of Medicine have entered into an agreement which grants at least four outstanding
high school students provisional acceptance to Baylor College of Medicine upon matriculation to Baylor University. One
of the four students selected will receive a scholarship valued at $80,000 covering $10,000 per year for four years of
undergraduate study at Baylor University and four additional years of medical study at Baylor College of Medicine. This
not a fast-track program; rather it is designed to afford very bright students the opportunity to broaden their educational
horizons. Students able to complete Baylor University degree requirements and BCM requirements early are encouraged
to study abroad and/or engage in a research project to complete their four year undergraduate commitment.

Brooklyn College/SUNY-Downstate Medical Center
8 year program
The B.A.-M.D. Program is a combined undergraduate and medical degree program run jointly by Brooklyn College and
SUNY Downstate Medical Center. In the first four years, at Brooklyn College, the students take the program's
curriculum of pre-med science courses, and they also earn a bachelor's degree in the major of their choice. Students
spend the next four years at SUNY Downstate Medical Center and earn their M.D. The B.A.-M.D. Program is geared to
students in the New York area. Applicants should be high school seniors. We recommend that our applicants have a
high school academic average of at least 90 and that they have at least 1200 as the sum of their reading and mathematics
scores on the SAT Reasoning Test (SAT I)

Boston University/ Boston University School of Medicine
7 year program
Provisional admission into medical school. Typical applicant has an average 2200 SAT score, 33-34 ACT score, 3.9
G.P.A., and three SAT II subject tests (writing, chemistry and math IIc) Students must take the MCAT (combined score
of at least 30) and maintain a minimum 3.2 G.P.A average. Applications are due Dec 1 on the year prior to matriculation.
International students: Eligible for this combined program

Brown University
8 year program
Guaranteed admission into the medical school. Applicants have an average 710 verbal SAT score, 730 mathematics SAT
score, and graduated in top 2 percent of high school class. Three SAT II subject tests required (one should be in science).
Applicants interested in Brown Medical School, may also apply to the following undergraduate campuses: University of
Rhode Island (RI), Providence College (PC)

Caltech / UCSD School of Medicine
8 year program
Each year, six newly admitted freshmen at Caltech will also be offered early admission to the University of California,
San Diego, School of Medicine, pending completion of their Caltech degrees as "medical scholars."

Admissions website
Case Western Reserve University / CWRU School of Medicine
8 year program
Provisional admission to medical school. As a high school student you must apply for the pre-professional scholars program. Students had an average SAT score of 1410-1510. If students take the SAT I only they are required to take three SAT II tests (writing and 2 other subjects) If a candidate is interested in engineering it helps to take the SAT II tests in math or science. The ACT test can be taken in lieu of the SAT I and SAT II because ACT scores are divided into individual categories (average ACT score between 30-34). Students must maintain a minimum 3.6 undergraduate G.P.A. while in the program. MCAT not required but if it is taken a minimum score of 32 is needed. All applicants considered for the Trustees scholarship, President's scholarship and Provosts scholarship.

Drexel University
7 year program
Applicants require minimum SAT score of 1360, minimum 3.5 GPA, in top 10% of high school class, and maintain a minimum 3.45 GPA as an undergraduate (no grades less than a C), and a minimum MCAT score of 30. Also leads to Drexel School of Medicine through programs with Wilkes University (WU), West Chester University (WCU), Muhlenberg College (MC), Monmouth University (MU), Lehigh University (LU), Villanova University (VU), Rosemont College (RC), and Ursinus College (UC).

Finch University Health Sciences/The Chicago Medical School and Illinois Institute of Technology
8 year program
Guaranteed acceptance into medical school after matriculating into the program. MCAT must be taken but no bearing on acceptance, 3.25 minimum GPA must be maintained while at IIT. Contact phone number: 312-567-3025

Fisk University / Meharry Medical College School of Medicine
7 Year program
Applicants not guaranteed admission into Meharry Medical school upon applying to Fisk University. Applicant must enroll in Fisk University and will be evaluated on the following: Grades (minimum GPA 3.3), high school ranking and SAT scores. A joint committee screens and interviews the applicants for medical school. In the junior year, the MCAT is taken and a minimum score of 24 is needed. After matriculating into Meharry Medical School for one year, a BA degree is granted from Fisk University.

George Washington University
7-8 Year program
Provisional admission into medical school. Each year a student's progress is monitored. Applicants require minimum SAT 1400, MCAT not required, and must maintain a minimum 3.3 GPA as an undergraduate. Students required to take SAT II in writing, science and mathematics. Students must have 100 hours of community service per year. 20 students matriculate into the program every year. Freshman scholarship options (FSO) available. International students: Not eligible for the combined program. Contact phone number: 800-447-3765
Howard University
6 Year program
BS/MD requirements for entering into the College of Medicine include: Minimum science GPA of 3.25; minimum overall GPA of 3.5; minimum total MCAT score of 24; strong interview and supportive letters of recommendation.
Admission Website

Indiana State University
8 Year program
Provisional admission into medical school. Applicants require a minimum GPA of 3.5, minimum 1200 on SAT, and applicant must have spent a majority of their life in a rural area. At ISU, students must maintain a 3.5 GPA, obtain the mean average score on the MCAT to receive acceptance into Indiana University School of Medicine and complete interview process at IU. Contact phone number: 812-237-2781
Admission Website

Northeastern Ohio Universities College of Medicine
6-7 Year program
Guaranteed admission into the medical school. Preference given to Ohio residents. The B.S./M.D. program has two phases. In Phase 1, students take premedical course work at an accelerated pace of two or three years at one of the three universities in the NEOMED educational consortium: The University of Akron, Kent State University and Youngstown State University. To be admitted to the BS/MD Program, a student must first be selected for an interview. The selection of students to be invited for an interview is based on academic credentials, extracurricular activities and other information provided in the student application. Students need at least a 3.5 unweighted grade point average. While there is no absolute minimum for ACT/SAT scores, for the last several years only students with at least a 26-27 ACT or 1170-1210 SAT* total/composite score were offered an interview. Accept ACT or SAT scores and will use the highest total/composite score despite the number of times the exams are taken. We do not accept or use SAT II scores. International applicants: Must have a green card to apply. If interested in Northeastern College of Medicine, applicants can choose from the following undergraduate campuses: University of Akron (UA), Kent State University (KSU) and Youngstown State University (YSU). Contact: University of Akron at 330-972-7880
Admission Website

Northwestern University / Feinberg School of Medicine (Northwestern University)
7 year program
Applicants require SAT I and SAT II subject tests in writing, mathematics level IIc, and chemistry. You must take a year of calculus, including differential/integral calculus and simple differential equations. Contact phone number: 312-503-8649 (December 2008)
Admission Website

Penn State University/ Jefferson Medical College of Thomas Jefferson University
6/7 Year program
Guaranteed admission into medical school upon matriculating into the six year accelerated program. Applicants requires minimum SAT 2100, higher than 32 on ACT, top 10 percent of high school class. MCAT needed in junior year. Contact Robert Mitchell at 814-865-5471
Admission Website
Rensselaer Polytechnic Institute (RPI)/Albany Medical College (AMC)

7 Years

From Admissions Website:
The class entering Rensselaer Polytechnic Institute in September 2006 was selected from a pool of 346 applicants. After careful review of applications at Rensselaer Polytechnic Institute and Albany Medical College, 173 students were selected for further review and 85 were interviewed at the medical college. Female applicants accounted for 42% of this group. Academically, most applicants invited for an interview had combined critical reading, math, and writing SAT scores of 2134 or greater. More detailed examination of the group of exceptional and promising young men and women beginning their first year of studies at Rensselaer in September 2006 shows that their combined critical reading, math, and writing SAT scores averaged 2161. Of equal importance to their demonstrated academic ability is their distinctly superior level of maturity and motivation.

Admission Website
Other Albany Medical College Programs

Rice University / Baylor College of Medicine

8 year program

Guaranteed admission into medical school. The average SAT score for entering applicants 2100 and applicants establish a strong interest in pursuing medicine. MCAT not required.

Admission Website

Siena/Albany Medical College

8 Year program

From Admissions Website:
An early assurance program between Siena College and Albany Medical College, the first of its kind in the country, places emphasis on humanities, ethics and social service. Students accepted into this program earn a B.A. degree from Siena after four years and an M.D. degree from Albany Medical College upon completion of the medical curriculum. Successful completion of all undergraduate degree requirements is necessary before matriculation into medical school.

Admission Website
Other Albany Medical College Programs

St. Louis University

8 Year program

The Medical Scholars Program is an exclusive opportunity for freshman applicants who plan to eventually attend medical school. Students who are accepted into this highly selective program are placed on an early application track to Saint Louis University School of Medicine.

Medical Scholars have the unique benefit of applying to the School of Medicine during the spring semester of their sophomore year - two years before traditional pre-med students in their class will know of their acceptance to medical school. Med Scholars are then notified of their admission decision before the start of their junior year.

Although Medical Scholars are not guaranteed admission to medical school, the program does boast a 98% acceptance rate - meaning that Medical Scholars are almost always successful in obtaining admission to Saint Louis University School of Medicine. Medical Scholars must still sit for the Medical College Admission Test (MCAT) at the appropriate time, but their test score does not impact their admission to medical school through the program.

Admission Website
Temple University School of Medicine Scholars Program
8 year program
The Medical Scholars Program provides an opportunity for exceptionally qualified high school seniors to gain a provisional acceptance to the School of Medicine upon completion of their undergraduate degree. Temple University School of Medicine offers this combined degree with three undergraduate institutions in the Commonwealth of Pennsylvania: Duquesne University in Pittsburgh, Washington & Jefferson College in Washington, and Widener University in Chester.
Although each undergraduate institution has a unique atmosphere and educational curriculum, the requirements of medical scholars candidates are similar. We are looking for students with a strong academic background, in the top 5% of their graduating class, who have completed a variety of AP coursework. Students should also demonstrate exceptional standardized test performance. The minimum SAT required is a 1350 in the combined verbal and math sections, with no individual section less than 600 (including the new writing section). The minimum ACT composite score required is 31. Students with demonstrated leadership and extensive community and health care experiences are encouraged to apply.
Admission Website

Union College / Albany Medical College
8 year program
Guaranteed admission into medical school. MCAT not required. Applicants are required to complete and submit the scores for SAT I and two SAT II Subject Tests. The SAT IIs should include one science and one mathematics test. The ACT can replace the requirements for both the SAT I and SAT II. Testing requirements for the Leadership in Medicine Program are a combined 1950 or better on the SAT and a 650 or better on each of the SAT IIs. If a student chooses to submit the ACT, he or she must have a composite of 30 or better.

Other Albany Medical College Programs

University of Alabama
8 year program
The Early Medical School Acceptance Program (EMSAP) is an undergraduate and medical school educational program which provides highly qualified students with an opportunity to have an enriched undergraduate experience in preparation for attending medical school. Graduating high school seniors must be admitted to UAB prior to applying to EMSAP. Minimum Overall GPA: 3.5 (on a 4.0 scale). Minimum of 30 on the ACT or 1340 on the SAT.
Admission Website

University of California – San Diego / UCSD School of Medicine
8 year program
For California Residents only. Minimum SAT Score of 2250
Admission Website
University of Cincinnati
8 year program
The Connections Program, a dual admissions baccalaureate/MD program, allows high school seniors to apply for and be accepted to both the University of Cincinnati undergraduate college and the University of Cincinnati College of Medicine simultaneously.

The Connections program is a non-accelerated, eight-year baccalaureate /MD program. Students spend four years as an undergraduate student at the University of Cincinnati and four years as a medical student at the College of Medicine (the University of Cincinnati College of Engineering joint program is nine years because of the required coop learning program).

Our application process is competitive; students must score a 29 composite on the ACT or a 1300 composite on the SAT to be eligible to apply.

Admission Website

University of Connecticut
8 Year program
Connecticut residents receive special preference and 25 applicants chosen for interview. Candidates will present a high school grade point average of 3.5 on a four-point scale; a class rank in the top 5 percent of their class; and an SAT 1 combined score of 1300 or ACT composite score of 30. Additional factors considered include, strength of recommendations, maturity, range and depth of extracurricular involvement; and commitment to the health sciences. As an undergraduate student must maintain a 3.5 GPA and minimum MCAT score of 28 with no individual score less than 7. Contact: 860-486-3137.

Admission Website

University of Miami
7 or 8 year program
Guaranteed admission into the medical school. Applicants requires minimum SAT score of 1360, be in the top 10 percent of high school class, take SAT II by Jan. 15 of senior year in high school, must maintain a 3.2 science GPA and 3.4 cumulative GPA. International students: Not eligible for the combined program. Contact: Maria Fallon at 305-284-4323

Admission Website

University of Missouri - Kansas City
6 Year program
From Program Website: "A medical student's journey begins as soon as they enter the UMKC School of Medicine's B.A./M.D. program. Immediate exposure to a curriculum that builds a strong foundation in medical science and clinical skills is integrated with the liberal arts and humanities into a year-round program. Our program allows students to choose an undergraduate major and earn their B.A. and M.D. in six years."

Admission Website
University of Nevada
7 year program
This program offers a seven year accelerated pathway to medical school for a small number of motivated, mature high school seniors who are serious and focused on a career in medicine. Students accepted into this program will complete the first three years of the required undergraduate curriculum at the University of Nevada, Reno (UNR) or the University of Nevada Las Vegas (UNLV), then enter the University of Nevada School of Medicine. Applicants must be attend a Nevada high school for a minimum of two years and graduate from a Nevada high school.

Admission Website

University of Pittsburgh
8 year program
From Program Website: Students offered the guarantee must complete an undergraduate degree at Pitt within four years, complete the prerequisite course work, maintain a cumulative science and quality point average of at least 3.75, and engage in undergraduate research and extracurricular activities that provide greater knowledge of the science and practice of medicine.

Admission Website

University of Rochester
8 year program
Guaranteed admission into medical school. Applicants require SAT scores in top quartile of Rochester entering class and exemplary grades. International students: Eligible for this combined program. Contact: Chris Antal 585-275-8595

Admission Website

Virginia Commonwealth University
8 year program
Guaranteed admission into the medical school. Students must fulfill requirements of honors program, maintain a 3.5 GPA, combined SAT I score 1910 with no score below 530 or ACT composite score of 29, and graduate in the upper 15% of high school class.

Admission Website

Washington University in St. Louis
8 year program
You will need to maintain an overall minimum 3.8 grade point average (GPA) to guarantee your position in medical school; if your GPA is below this minimum, your eligibility for graduate study will be up to the School of Medicine’s discretion. You will also need to achieve a total score of at least 36 on the Medical College Admission Test (MCAT).

Admission Website
